

Message from Chairman to every teacher and also on behalf the DCST on Teacher's Day.

Hari Om to All Vidyalaya Teachers,

Let me begin by saying that each one of you is a gem and precious and when you all stringed together you all become a treasure for our Vidyalaya.

A teacher is filled with joy and happiness as he or she enters the classroom and sees faces of students bubbling with infectious energy and scaling hopes. Who would have imagined that there could be time when this pleasure of being in the classroom will become longed-for?

You are still seeing your students but they are separated through a screen. And, this is now a new normal relationship between the students and teachers. I assume that this must have been the unprecedented experience for every teacher in their professional lifetime.

However, this unsought Pandemic has thrown a challenge to everyone, especially the teachers, who had to innovate themselves to not let the tap of knowledge and learning go dry.

You all are amazing and be remembered for exhibiting an exemplary resilience to provide new learning environment by condensing curriculum, lesson plans and homework via the internet, smart phones and other online tools. This also opened up new capabilities and capacity in all of you without much guidance indeed that online education and learning is possible.

On this day of Happy Teacher's Day, I wish all of you as a 'Teacher Leader' in your own right and I would call upon each of you to 'Reimagine the Future of Education, Teachers and Students'.

Thank You!!
Alok Verma
